

Ecologic Entomology and CV for Jonathan Boyar

Qualifications

Jonathan Boyar is the principal of Ecologic Entomology, a pest management consulting and technical services company located in Boston, Massachusetts. He's an associate certified entomologist (ACE) with the Entomological Society of America, and has been a pest control operator for more than 31 years. He is licensed & certified by the Commonwealth of Massachusetts. Mr. Boyar is an industry consultant for pest control companies, health departments, property management companies, and affordable housing organizations. For more than 25 years he's been educating industry and the general public about the bed bug resurgence. His seminar "An Old Problem in a New World" is a soup to nuts examination of the bed bug problem across the globe and has been called one of the best by national audiences. He has been the contracted trainer for MassHousing, New England Affordable Housing Management Association, the Boston Housing Authority, and dozens of other public & private entities. His company employs a staff of 17 service professionals, many of which are Associate Certified Entomologists. The company provides pest management services throughout the state of Massachusetts and Rhode Island. Mr. Boyar has been admitted and qualified as an expert in cases heard in the Massachusetts Court system.
